<p>I would like to inquire whether it is preferable to provide External Financial Statements or Credit Facility Letters for Nampower's review.</p> <p>My understanding is that the financial audits serve the purpose of assessing our capability to complete the project without encountering delays. However, I am also exploring the possibility of collaborating with an Original Equipment Manufacturer (OEM) company that offers credit facilities encompassing all necessary components to ensure seamless project completion.</p> <p>Could you please advise on the recommended course of action in this regard? Your insights would be greatly appreciated as we strive to ensure the smooth progress and successful completion of our project.</p>	<p>The bidder shall submit credit facility letter from a Namibian commercial bank, NOT FROM AN ORIGINAL EQUIPMENT MANUFACTURER.</p>
